

Actylis Global Carbon Footprint - Greenhouse gas (GHG) emissions (tCO₂e)

All figures are in tons of CO₂ equivalent (tCO₂e)

GHG Inventory Breakdown	Description of Business Activities	2024	2023
Scope 1	Emissions from owned or controlled sources	2,782	2,956
Stationary combustion fuels and equipment	Process and facility heating - Natural Gas, LDO, HDO etc	2,629	2,660
Mobile combustion fuels and vehicle emissions	Company owned trucks, buses and forklifts.	49	187
Fugitive emissions	Air conditioning infrastructure	104	109
Scope 2	Emissions from purchased or generated electricity	2,008	1,771
Location-based	Purchased plus generated electricity with about 40% renewable content.	2,008	1,771
Market-based	Same as Location-based, not measured separately.	-	-
Scope 3	Emissions from entire value chain	195,159	183,459
Purchased goods and services	Distribution business, as major contributor. Spend based emissions.	168,958	159,554
Capital goods	Small manufacturing footprint. CAPEX to upgrade acquired units.	1,001	2,435
Fuel and energy-related activities	About 0.5% of the total emissions reported.	1,062	701
Upstream transportation and distribution	Ton-Miles of the material transported. Includes refrigerated transportation & storage.	16,097	14,132
Waste generated in operations	Various Streams - solid, liquid, haz and non-haz (landfill, incineration etc.)	3,856	2,705
Business travel	About 0.35% of total emissions reported. Includes all global business travel.	667	537
Employee commuting	About 0.25% of total emissions reported. Includes all global locations.	525	508
Upstream leased assets	Immaterial and non-relevant to organizational boundary.	na	na
Downstream transportation and distribution	Ton-Miles of the material transported. Includes refrigerated transportation.	1,563	1,724
Processing of sold products	Not applicable - no visibility into the processing of sold products + diversity of products sold.	na	na
Use of sold products	Not applicable since the sold products do not consume any electricity during usage.	na	na
End-of-life treatment of sold products	No visibility into EOL treatment of sold products. Only packaging EOL emissions covered.	1,430	1,163
Downstream leased assets	Immaterial and non-relevant to organizational boundary.	na	na
Franchises	Immaterial and non-relevant to organizational boundary.	na	na
Investments	Immaterial and non-relevant to organizational boundary.	na	na
Total Emissions	Emissions from entire operations (Scopes 1,2, & 3)	199,949	188,186
